Everett Schram, AIA, is the president and founder of his Baltimore-based firm, J. E. Schram Architect, LLC. While he is a transplant from South Louisiana by way of Washington, D.C., he has made our historic city of Baltimore his home. Throughout his career, he has been influenced by the simple, elegant, vernacular architecture of different regions. To Everett and his firm, there is something alluring about buildings that seem rooted to their place, creating an essence that is timeless and feels right at home where it resides. When he works to create a new home with a client, every detail is thought through with the filter of the firm's philosophy—to create places that feel as if they have always been there.
